P25 Pallet truck

Product information

With the P25, REMA offers a reliable quality pallet truck. The comfortable operating handle controls lifting, driving and lowering. Controlled lowering is also easy with the foot pedal on the hydraulic pump. The large, low-noise polyurethane steering wheels and tandem rollers ensure that the pallet truck is easy to maneuver and remains smooth on uneven floors. The P25 is also equipped with in and out rollers with which you can easily drive in and out of the pallet. The sturdy steel frame has an orange powder coating.

Properties

- Pump unit equipped with overload protection
- Steel frame with orange powder coating
- Foot pedal for controlled lowering of the load
- Equipped with in and out rollers
