

CBV beam lifting clamps

Product information

REMA[®]

Designed for safe lifting and transportation of steel beams in vertical position.

Properties

- The lifting eye is placed as far as possible in the center of gravity of the beam to be hoisted

Application

- For vertical lifting, transportation and stacking of steel (H) beams, profiles and structures where the load must stay perfectly in position
- Especially recommended for transportation and stacking of steel (H) beams (e.g. when sawing of steel beams, stacking of steel beams and building of steel constructions)
- Jaw openings available from: 0 to 25 mm.
