

MDA Rope puller

Product information

Lightweight and extremely robust POWER PULLER. Ideally suited for assembly work. With many application possibilities when it comes to pulling, lashing and tensioning.

Properties

- Safety factor 4.
- Hooks equipped with safety latches.
- Anti-slip safety handle.
- Non-conducting properties.
- Safe workload only with horizontal use.

Option

- Rope.

Note: Before use, check steel wire rope and flexible sheath for damages. Before use, check suspension and/or load hooks for tilting and for missing safety latches. Never use an extension pipe on the lever to exert a higher force on the puller.

Warning: NOT FOR LIFTING.

| Part code | Rope diameter mm | Model | Tension force daN | Weight kg | Delivery time |
